QUINTESSENCE
MILLACLICK FINE ART PHOTOGRAPHY

Whether on ordinary outings near home or cultural excursions around the world, I find myself training my eye on the everyday—structures, objects, people, landmarks, architectures—to capture intriguing social landscapes, scenes, and patterns with photography.

A mechanical design engineer by education and marketing strategist by profession, I am able to meld my left and right brain to showcase thoughtful creativity and an innate classicism. Heavily influenced by my stream of consciousness, I attempt to convey something more than mere realistic renderings of observed subjects through my personal impressions and creative vision. My style weaves together a fabric of engineered elements within a fractional view, and frequently incorporates abstractness.

I am proud to offer my inaugural portfolio, entitled "QUINTESSENCE." It features thought-provoking images documenting inherent beauty from across the globe.

I am excited to express my unique perceptions through this collection of work, and share it with you. I truly hope you enjoy it and it inspires you to take a closer look at the everyday world around you... **and see it in a whole-new way.**

Best,

Lauren L. Miller Lauren L. Miller | www.millacllick.com

All images are professionally printed on Innova FibraPrint™ (FType) gloss archival paper. Ready for your personal preference of framing, each open-edition, giclee print includes backing and an 8-ply acid-free mat signed by the photographer.
